Ralph Stingo

Gentlemen:

COMMENDATION

I would like to offer some feedback in regards to the efforts of one of your employees, namely, Rick Spruill.

I became acquainted with Rick approximately one year ago after the Unit 2 outage at PPL Montour plant, which was also after an inspection by O.S.H.A. Rick's cooperation and performance are to be commended. The Unit 1 portion of the SCR and precipitator job saw a reduction in injuries as well as fewer unsafe acts by workers.

Please accept my thanks to Riggs-Distler and my gratitude to Rick. He truly cares about the workers' safety. Congratulations on a SAFE completion of the Montour Project.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Crispell", written in a cursive style.

Daniel A. Crispell
Senior Safety and Industrial Health Specialist
